Regional Office No. VI

STHRDS
ACKNOWLEDGMENT RECEIPT

DOST FILE

TO-SCH-F13
Rev. 3 Eff: 17 Apr 2024
RRG/smvg

Name: Melgar, Danielle R.
(Last Name, First Name, MI.)

Date: March 3, 2025

Mobile Number: 09150223888

Batch & Program: 2023, RA 7687
sample: 2022, RA 7687

Email Address: melgardanielle2@gmail.com

Course, School: BS Biology, ASU Banga
sample: BSED Mathematics, WVSU Main

Periodic Requirements

- [ ] Official Grades
  _____ semester/term SY _____
- [ ] Registration Form
  _____ semester/term SY _____
- [ ] Statement of Account/Official Receipt
  _____ (amount)
  _____ semester/term SY _____
- [ ] Letter of Appeal/Certification for INC Grade/s
- [ ] Thesis Form
- [x] Others: Thesis Grant Form

Other Requirements

- [ ] Reply Slip
- [ ] Scholarship Agreement (5 copies)
- [ ] Scholar's Information Sheet
- [ ] Visitation Map
- [ ] Landbank Savings Account
- [ ] Course Prospectus
- [ ] Transcript of Records
- [ ] Diploma

For inquiries/follow up, you may call at (033) 330-1565 loc. 107 or email scholarship@ro6.dost.gov.ph

Received by,

MEIKKA VILLANUEVA
(Signature over Printed Name, Position)

- [ ] Regional Office
- [x] PST Office
- [ ] University Coordinator

REMARKS

- [ ] Documents complete and proper
- [ ] Lacks the following:

Verified by:

Date:

Name: Danielle R. Melgar
Course: BS Biology
Year of Award: A.Y. 2023 - 2024

Scholarship Program: JLSS - RA 7687
School: ASU Main - Banga

Microplastic Density and its Correlation to Microbial Hitchhikers in the Intertidal and Inland Areas of New Washington, Aklan
Title of Thesis

Brief Rationale

We assessed the microplastic density and its correlation to microbial hitchhikers in the intertidal and inland areas of New Washington, Aklan, specifically: Barangays Tambak, Poblacion, Ochando, Dumaguit. Local and international studies attest to the ~~impact~~ importance of microplastic pollution and microbial hitchhiker awareness in our environmental matrices, and the adverse effects brought about by neglecting this global phenomenon. Thus, ~~univrop~~ assessment of microplastics and microbial hitchhikers in the intertidal and inland water zones of the economically significant municipality of New Washington, Aklan will benefit the locality that depends on these areas for its livelihood, housing, and food source.

Objectives

Generally, we assessed the correlation btwn microplastic density and microbial concentrations in inland and intertidal waters of New Washington, Aklan.

Specifically:

1) Determine microplastic density and types in inland and intertidal waters of New Washington, Aklan
2) Determine microbial concentration in inland and intertidal waters of New Washington, Aklan
3) Determine relationship of microplastic density to the microbial concentration in inland and intertidal waters of New Washington.

Methodology

1) Determine sampling stations
2) Sample collection
3) Microbial Analysis
4) Isolation of Microplastic Particles
5) Visual Analysis through Microscopy and Hot Needle confirmatory test
6) FTIR spectroscopy
7) Statistical Analysis
